BSCI & Sedex Ethical Production

LFGB / FDA Certified Food Contact Safe

Bridging Bangladesh’s Craftsmanship with Global Retail Excellence

Ariel Marketing & Communications Limited | Global Sourcing • Export Management • Private Label Brand Development

CORPORATE STORYLINE & IDENTITY

ArielMC is a hybrid export, sourcing, and brand management firm based in Bangladesh.

For decades Bangladesh has been a global manufacturing powerhouse across textiles, fine leather goods, natural jute fibres, vitrified ceramics, and terracotta pottery. Yet global retail buyers still face barriers in direct communication, transparent pricing, agile product development, and reliable quality compliance.

ArielMC was established to eliminate this friction. We act as an institutional bridge — pairing deep on-the-ground manufacturing intelligence in Bangladesh with modern corporate brand management. We provide dedicated buyer representation, transparent cost models, and end-to-end supply chain execution for leading retailers and importers across the United Kingdom, the United States, Europe, and Australia.

“Crafted in Bangladesh. Curated by ArielMC. Delivered worldwide.”

STRATEGIC FOUNDATIONS

PILLAR	STRATEGIC FOCUS	BUYER COMMITMENT
Mission	Sustainable & Compliant Export	To deliver premium, compliant, and sustainable products from Bangladesh to the world — supported by strong corporate communication and long-term partnership.
Vision	The Premier Sourcing Partner	To become the most trusted sourcing and brand development partner for global buyers seeking uncompromised quality, reliability, and strategic brand growth.
Identity	Hybrid Sourcing & Brand Management	An agile hybrid model integrating factory-floor procurement, QA/AQL technical supervision, custom OEM/ODM packaging, and containerized global logistics.

CORE VALUES

Our operational philosophy governs every factory audit, production run, and commercial interaction.

PROFESSIONALISM

International standards, clear tech-packs, punctual milestone delivery.

TRANSPARENCY

Open-book costing, auditable material chains, unfiltered reporting.

QUALITY

Precision craftsmanship with strict AQL 1.5 / 2.5 final inspection.

SUSTAINABILITY

Zero-carbon fibres, biodegradable packaging, compliant workplaces.

LONG-TERM PARTNERSHIP

Program stability, reliable capacity forecasting, shared growth.
